Finiks Engineering Company

ABOUT **FINIKS**

Finiks Engineering Company, an NABL accredited laboratory, is an acclaimed name in the field of Calibration and manufacturing of Gauges with 20+ years of expertise. We are committed to give quality service to our valued customers helping them achieve better process control and quality result in their system.

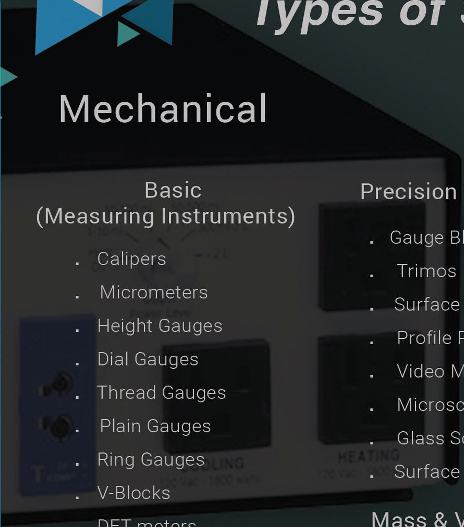
We provide calibration services for Mechanical, Electro-technical and Thermal Parameters. We are also an established name in the field of Gauges manufacturing.

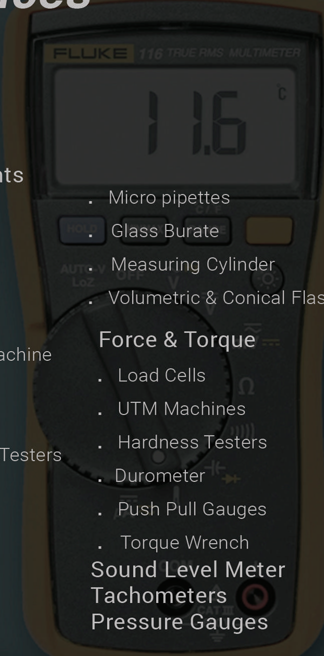
We manufacture a wide range of Gauges in Steel as well as Carbide to deliver best quality. Our aim is to serve you better by providing you with the best product quality and operational safety through our quality control methods.

WHY **CHOOSE US ?**

- One stop solution to all your calibration needs.
- Provides top-notch quality services.
- Has highly qualified and experienced workforce.
- Quick turnaround time.
- Aims for customer atisfaction.
- Constantly upgrading skills as per the updated calibration standards.
- Provides On-site calibration services.

Types of Services





Mechanical

Basic (Measuring Instruments)

- Calipers
- Micrometers
- Height Gauges
- Dial Gauges
- Thread Gauges
- Plain Gauges
- Ring Gauges
- V-Blocks
- DFT meters
- Measuring Tape/Scale
- Test Sieves
- Radius Gauges/Templates

Precision Instruments

- Gauge Blocks
- Trimos
- Surface Plates
- Profile Projector
- Video Measuring machine
- Microscope
- Glass Scales
- Surface Roughness Testers

Mass & Volume

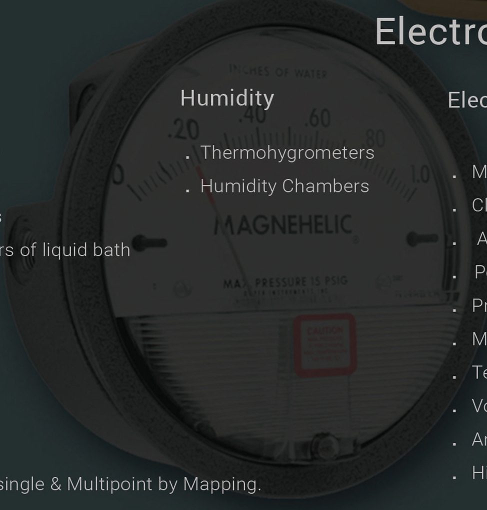
- Reference Weights
- Industrial Weights
- Weighing Scales
- Micro pipettes
- Glass Burate
- Measuring Cylinder
- Volumetric & Conical Flas

Force & Torque

- Load Cells
- UTM Machines
- Hardness Testers
- Durometer
- Push Pull Gauges
- Torque Wrench

Sound Level Meter
Tachometers
Pressure Gauges

Thermal



Temperature

- Thermocouple
- RTD Sensors
- Thermometers
- Temp Indicators of liquid bath
- Freezers
- Oven
- Incubators
- Autoclave
- Furnace
- Cold Room
- Calibration at single & Multipoint by Mapping.

Humidity

- Thermohygrometers
- Humidity Chambers

Electro Technical

Electro-Technical

- Multimeters
- Clampmeters
- AC/DC Power supplies
- Power/Energy Meter
- Process Calibration
- Meggers
- Temperature Controllers
- Voltmeters
- Ammeters
- High Voltage Testers

Gauges

We design & manufacture all types of gauges with precision machinery keeping in mind the dimensional metrology. We use high quality raw material (steel/carbide) so our gauges have strong dimensional stability and greater wear resistance along with greater interchangeability.

We also specialize in non-standard designs such as extra lengths, multiple diameters, air grooves, pilots, depth steps.

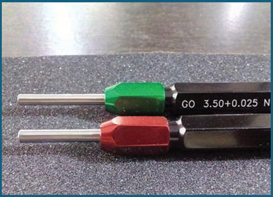
All gauges are tailored according to your requirements and specifications and are calibrated and delivered with an NABL certificate.

We supply and manufacture the following types of gauges:

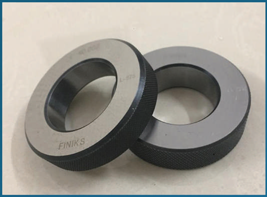
Plain plug gauge

NOGO
GO
FINIKS

Reversible Type Plug



Plain ring gauge



OD Setting Masters

Snap Gauges

Thread Plug Gauges

Thread Ring Gauges

7/8"X 14 UNF-2A
NOGO
B 856
FINIKS

Measuring Pins

Taper Gauges

We also manufacture special type of customized gauges like CD/PCD Gauges, Keyway Gauges, Templates, Angle Gauges etc (as per customer/your drawing)

Address

Regd. Office - Plot No. 21, Near Wasan Automobiles,
Anand Nagar, Sahyadri Chowk, M.I.D.C.,
Ahmednagar-414111, Maharashtra, Tel. 0241-2778918
